## ARAP Higher Command Code Request Process

- Slide 3 – 6 outlines how to request a Higher Command Code. [ <https://earap.safety.army.mil> ]
  - When the request has been received a records check will be completed to ensure the requestor has been given approval by the \*commander to obtain the code.

*\*Note: Approval must be from the commander designated representative (CoS, DCO, XO) and must be at the same level as the Higher Command Code request.*

- If an approval email is on file then the request will be approved in the system which will send the Higher Command Code to the email address provided in the request.
  - A separate email will be sent and attached will be the “ARAP Higher Command Code Navigation” document that will provide examples of the charts and data you will be able access with your code.
- If an approval is not on file one will be required. Example is on Slide 6.
  - Ensure to have [ [usarmy.rucker.hqda-secarmy.mbx.e-arap@mail.mil](mailto:usarmy.rucker.hqda-secarmy.mbx.e-arap@mail.mil) ] in the “cc” line of the email.
  - Or click on the folder “HCC Email” which will open an email template to send.
